PROFESSIONAL SUMMARY

Software Engineer (BCA – AI/ML, 2026) with 1+ year of internship experience building scalable microservices, RESTful APIs, and cloud-native applications using **Java, Spring Boot, Node.js, TypeScript, and React**. Delivered measurable impact: 30% better system reliability, 40% faster issue resolution, and 25% shorter deployment cycles. LeetCode Global Rank **#1200** (510+ problems, 406+ Medium/Hard). Seeking a full-time Software Engineer / Full Stack Developer role.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, Python, C++

Backend: Spring Boot, Node.js, Express.js, REST APIs, Microservices, GraphQL, gRPC, WebSockets, Kafka, RabbitMQ

Frontend: React.js, Redux, HTML5, CSS3

Databases: MongoDB, MySQL, PostgreSQL, Redis

Cloud/DevOps: AWS (Lambda, EC2, S3, API Gateway), Docker, Kubernetes, Helm, Terraform, GitHub Actions, Jenkins, Prometheus, Grafana

AI/ML: Scikit-learn, TensorFlow, OpenCV, YOLO, NLP, FastAPI, LLM Integration, Hugging Face

Tools: Git, Jira, Postman, Swagger/OpenAPI, JUnit 5, Mockito, Agile/Scrum, TDD, System Design

WORK EXPERIENCE

Software Engineer Intern – Full Stack

Sep 2025 – Jan 2026

Kukbit SL Pvt. Ltd. — Pune, India

- Architected production-ready microservices using Node.js, TypeScript, MongoDB, and Docker for high-availability finance apps with 89.9% uptime and thousands of concurrent users.
- Improved backend reliability by **30%** via background workers, distributed tracing (Jaeger), and centralized logging (ELK Stack) across all services.
- Secured REST APIs with JWT authentication and RBAC, achieving zero unauthorized access incidents; optimized Kubernetes workloads with HPA auto-scaling, cutting incident resolution time by **40%**.
- Built CI/CD pipelines (GitHub Actions) with automated testing, reducing deployment cycle time by **25%**; delivered 100% of sprint commitments across 6 sprints with zero critical rollbacks.

Java Developer Intern

Jul 2024 – Oct 2024

CodeClause — Remote

- Built and maintained backend modules using Java, Spring Boot, REST APIs, MySQL, and MongoDB following SOLID principles and clean code standards.
- Designed test suites with JUnit 5, Mockito, and TDD, reducing post-deployment defects by **35%** across all sprint deliverables.
- Configured Docker/Kubernetes deployments and contributed to Swagger/OpenAPI documentation and peer code reviews.

PROJECTS

MED-AI – Clinical Decision Support System | Python, FastAPI, React, OpenCV, YOLO, AWS, PostgreSQL

- Built an AI-powered healthcare app to analyze medical reports and X-ray/ultrasound images, achieving **94%+ accuracy** on a 10,000+ image dataset using YOLO and OpenCV deep learning models.
- Deployed distributed architecture on AWS (EC2, S3, Lambda) with JWT/RBAC-secured FastAPI; React frontend handles real-time inference with **sub-200ms P95 latency** under concurrent load.

P2P File Sharing System (LAN) | Node.js, Express.js, WebSockets, Socket.IO

- Built LAN-based peer-to-peer file sharing achieving **>50 MB/s** transfer speeds with real-time progress tracking, automatic peer discovery, and secure handshakes via WebSockets/Socket.IO.

AI-Powered Text Classifier | Python, Scikit-learn, NLP, Flask, TF-IDF

- Developed NLP text classification model with **92% accuracy** on a 50,000+ record dataset; deployed as a Flask REST API for real-time low-latency inference.

EDUCATION

Bachelor of Computer Applications (BCA) – Specialization in AI & ML CGPA: 8.5/10

2023 – 2026

Goel Institute of Higher Studies Mahavidyalaya — Lucknow, UP, India

CERTIFICATIONS & ACHIEVEMENTS

- LeetCode:** 510+ problems solved | 406+ Medium & Hard | Global Rank **#1200** in Weekly Contests
- Oracle Cloud Infrastructure 2025** – Certified Foundations Associate
- J.P. Morgan** – Software Engineering Virtual Experience (Forage)
- Cisco Networking Academy** – Networking Basics | **SAP** – Advanced Topics Certification | **TCS iON** – Career Edge Young Professional
